Academic Year: 2017-2018

Report

Skill based courses were started in the college from the academic year 2017-2018. One of the courses offered is Oratory Skill Based Course. Twenty students were selected for this course. Twenty students, including boys and girls, were given information on speech or oratory skills. During this sixteen day course students were taught various aspects of oratory. Students were guided on how to structure the subject, how to use the language, how to present the subject, how to use body language or gestures in speech.

The aim of the course is to enable students to speak confidently and without stumbling when speaking in public or in public interviews in the future. With the help of demonstrations, the children get maximum practice so that they can confidently participate in some competitions both inside and outside the college. Some students are unable to express themselves.

The aim of the course is to enable students to speak confidently and without stumbling when speaking in public or in public interviews in the future. With the help of demonstrations, the children get maximum practice so that they can confidently participate in some competitions both inside and outside the college. Some students are unable to express themselves. The purpose of this course is to build confidence in such students and encourage them to express themselves.

During the sixteen days of listening to lectures and participating in seminars for demonstrations, the students underwent a lot of changes. The changes required to express oneself were visible in the students till the end of the course.

Incorporating such skill-based courses into the academic curriculum helps in the holistic development of the students. It also helps students to achieve success in the future not only academically but also in some other fields.
